

FOOD SERVICE SOLUTIONS

Streamline your food service operations with Modisoft’s solutions. From kitchen management and online ordering to tip tracking and self-service kiosks, our tools are designed to simplify workflows, reduce errors, and enhance customer satisfaction—whether you run a restaurant or café.

Recipe Suite

Our Recipe Suite streamlines kitchens, cuts waste, and ensures consistent, exceptional dining.

Order Management

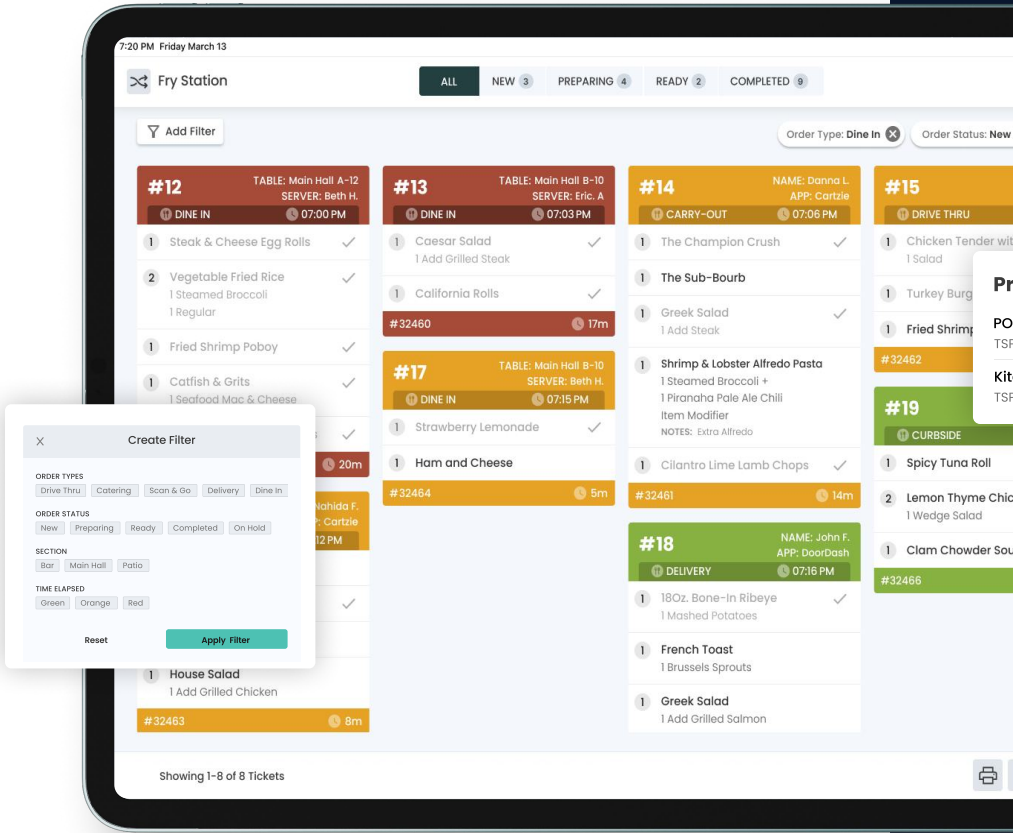

Modisoft condenses by integrating with DoorDash, Uber Eats, and Grubhub, simplifying operations and enhancing experiences.

Table Management

Modisoft’s Table Management improves efficiency, optimizes guest flow, enhances control, and drives revenue for any restaurant.

Tips Management

Modisoft’s Tip Management simplifies tracking, distributing, and reporting tips for restaurants, bars, and cafés in one platform.

Kitchen Display System

Our Kitchen Display System streamlines operations, easing lunch rush stress and keeping orders flowing smoothly.

Point of Sale & Kiosk

Modisoft’s POS with Kiosk capabilities reduces errors, speeds orders, eases staff stress, and boosts satisfaction in stores or restaurants.

Online Ordering

Our Online Ordering helps cafes and restaurants go digital, offering modern, seamless experiences customers expect today.

Payment Processing

Ensures smooth and secure transactions for online, in-store, or on-the-go payments.
