

INSIGHTS

Fuel your back office with Modisoft Insights—an advanced business intelligence solution that delivers deep, actionable data and back-office management functionality. Spend less time worrying about point of sale and experience an intuitive, easy-to-use back office software designed for owners, managers, and team members.

Manage Your Business Like Never Before

Oversee your entire operation – from inventory to financials – all in one software. Insights gives you a centralized dashboard for a bird's eye view of your business.

- ✓ Track sales, stock levels, and workforce information from anywhere.
- ✓ Whether you're running 1 location or 100, you're always fully in sync with what's going on at all your locations.
- ✓ Get the insights that matter to you and generate the data you need to visualize.

When It Comes to Back Office Solutions, Don't Settle for Less

- ✓ Whether you need a back-office software for one location or for the entire franchise, MODISOFT insights is scalable with your business.
- ✓ User-friendly design means less training, fewer errors, and more time for your business.
- ✓ Businesses using Insights report reduced overheads, improved efficiency, and higher profitability.

Your Challenges, Solved By Insights

- ✓ No more countless spreadsheets and difficult data.
- ✓ Automates all your human errors, from payroll to inventory.
- ✓ Insights scales with your business and provides the tools that you need at every stage.
