

# KIOSK

Struggling with long lines, order mistakes, or overwhelmed staff? Switch to Modisoft's self-service Kiosk. Designed for retail stores or restaurants, it simplifies order processing, reduces errors, and improves customer satisfaction.

## Minimize Order Errors with Precise Customization

- ✓ Let customers personalize their orders with multiple options, ensuring every choice is accurate.
- ✓ Automatically send detailed instructions to the kitchen, leaving no room for miscommunication.
- ✓ Employees can focus on faster preparation instead of clarifying details.

## Update Menus In Seconds

- ✓ Automatically update menu items and pricing across all kiosks.
- ✓ Showcase specials, limited-time offers, or seasonal items with ease.
- ✓ With portrait or landscape options, find the right layout for your business.

## Effortlessly Manage Peak Hour Traffic

- ✓ Customers self-serve, reducing wait times and increasing order accuracy.
- ✓ Orders instantly update across all systems, keeping your team in sync and reducing confusion.
- ✓ Whether it's a large coffee order or a meal combo, customers can easily place multiple orders in a single transaction.

## Offer Faster and Flexible Payments

- ✓ Accept cash, cards, or digital wallets directly at the kiosk or online cashier.
- ✓ Payments are processed quickly and accurately to keep lines moving.
- ✓ Attract more customers with engaging content.
