

ORDER MANAGEMENT

Whether you're running a convenience store or a fast-paced restaurant, Modissoft brings organization to your operations. Our software is tailored to your needs. With Order Management, you can simplify operations, eliminate errors, and deliver a seamless experience to your customers from one intuitive platform.

Seamless Integration for Online Orders

Managing multiple delivery platforms doesn't mean you have to watch multiple apps or devices. Modissoft integrates natively with major delivery platforms so every incoming order is immediately visible in your POS system.

- ✓ Orders arrive in your POS system instantly, ensuring no ticket is ever missed.
- ✓ Each detail of the order is transferred accurately, eliminating mistakes.
- ✓ All order entry is automated for you.

Be Where Your Customers are –Online

In today's competitive market, online ordering isn't just nice to have – it's essential. With Modissoft, orders are processed immediately and sent directly to your kitchen or prep area.

- ✓ Serve faster and more efficiently to keep customers coming back for more.
- ✓ Thorough order details mean fewer customer complaints and happier diners.
- ✓ Orders are ready for preparation as soon as they are placed.

Grow Your Business with Ease

Modissoft is more than just a tool — it's your partner in growth. By simplifying order management, boosting online presence, and reach, our software helps you scale your business effortlessly.

- ✓ With integrations to major delivery apps, reach more people than ever.
- ✓ Spend less time troubleshooting and more time focusing on what you do best.
- ✓ Online orders are no longer a side hustle — they're a major revenue stream.

Multiple Menus, One Solution

Running separate menus for lunch, dinner, or promotional items? Modissoft's Order Management System makes it simple to unify your offerings across one centralized platform.

- ✓ Adjust menus quickly for different times of the day or for unique delivery services.
- ✓ Maintain a consistent look and feel across all platforms, strengthening your online presence.
- ✓ As soon as you make changes, they're live across all channels – no extra effort required.
