

For Retail

Modisoft™

Revolutionizing Businesses.

The background is a solid orange color. It features several light orange rounded squares of various sizes, some of which are slightly offset or layered, creating a sense of depth. A thin white line runs horizontally across the top, and another runs horizontally across the bottom, with a vertical line on the left side connecting them, forming a frame-like structure.

Every **process** for every **business**.

Modissoft's highest **priority** is to help
independent **businesses** flourish.

Sohail Modi, the founder of Modisoft, understands the position of independent businesses; he owns a convenience store himself. For his own business and others', he decided to create a comprehensive system to serve all of their back office software needs. He shared it with his community as the initial developer, salesperson and support for the system.

Modisoft began as a free desktop program that business owners could download. As Modisoft grew and moved onto a server, clients were only charged the cost of the server to keep it running. Now, Modisoft is the most effective, complete and economically friendly software for businesses of all kinds and sizes.

Modisoft operates by a philosophy of nurturing businesses and their sense of community. Even as they grow and branch out into diverse industries, the camaraderie and mutual support remain;

Modisoft stays in touch with its clients, actively listens to feedback and applies solutions to continue perfecting the software for everyone. It was built with all the necessary insights to deliver the exact tools its clients need, and it is always evolving with the market to keep them competitive.

We have the tools you need to run a successful business, grow and expand to multiple locations and enjoy smooth logistical operations.

Modisoft's system is flexible enough to accommodate a wide variety of business types including retail, cafes and restaurants, convenience stores, grocery stores, liquor shops and tobacco shops.

The software has features that simplify processes in tracking inventory, employee hours, payment processing and many other facets of running a business that other point of sale and back office systems do not offer in one affordable package. This flexibility also allows business owners to manage multiple stores as they open new locations. This means that Modisoft grows as you do!

You are the reason we do this. We believe in the mission of small businesses because we came from one. Join Modisoft's community to run your business smoothly — **we've got your back.**

At Modisoft, we strive to create the technology you can count on, no matter your background. By keeping things Simple, our designs are streamlined and easy to use.

With our Reliable technology, you can be sure it always works in the exact way you need, every time. Designed for Efficiency, we aim to minimize any excess steps or barriers that other PoS services may have — ensuring all experiences for all users are as seamless as possible.

Together, these three values define everything we do. We never forgot our foundations as a small store owner, in need of effective, all-in-one software to handle back office needs. And as such, we feel the same pressures as many small businesses, looking to compete with larger stores around them. Now, we make that relief accessible to businesses of all sorts: our simple, reliable efficiency letting owners focus on growing their passions as effectively as possible.

Insights

Let Modisoft streamline the logistics. Simplify everything from payroll to pricing and inventory, receive reports on your business's performance and manage all of your store locations, even from your phone.

Every Business: Fits Your Niche and Scope

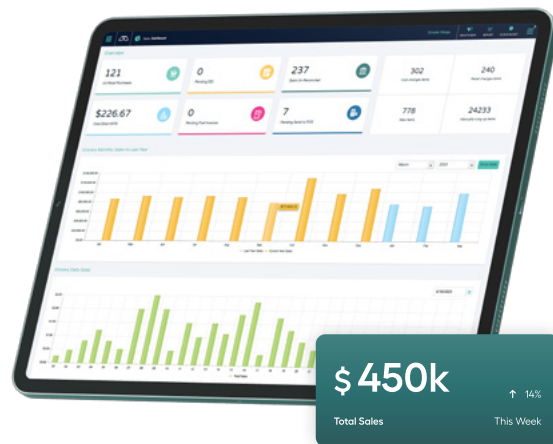

Highly flexible no matter your scope, you can rely on our technology to match your needs. Whether you need us for a small niche within your business, or you want support on a broader scale, we offer invaluable tools. Once integrated, our data insight tools empower you to boost efficiency even further.

Every Store: Multi-store Expertise

Our technology, whether software or hardware, has been crafted with your industry in mind. We offer services designed for your space – whether they fill an industry niche, or are flexible enough to account for multiple kinds of stores. From small bakeries to large grocery chains, from convenience stores to restaurants, we offer support tools and fantastic insight for whatever your admin process demands.

Every Function: A Comprehensive Admin System

With an all-encompassing design, our tools fill any or all needs you may have for your business' administration. We track inventory and employee hours, process payments, and so much more. Our tools are purpose-built to support what you need easily and reliably.

Manage Lottery Sales

Offload and automate your lottery duties onto our services, saving you time while gaining key insights

- ✔ No more counting by hand, easily track all sales
- ✔ Learn more about your sales with our insightful analysis software
- ✔ Prevent lost ticket sales

Fuel Pricing Management

Push the right price, to the right stores, at the right time.

- ✔ Easily manage fuel operations and track deliveries
- ✔ View all sales activity from all stores on one screen
- ✔ Manage precise pool margins, inventory and profit reports
- ✔ Change gas prices from anywhere

Point of Sale

Treat your customers, employees and yourself well with reliable, flexible point of sale. Modisoft's system functions both on the Cloud and offline, ensuring that it operates smoothly for you at all times, no matter what kind of day.

Adaptable Interface

We offer full service point-of-sale technology for all business and payment types. Our Point of Sale tools are adaptable to any store type, be it a café, drugstore or boutique. With our technology you can start processing all types of payments with our universal solution .

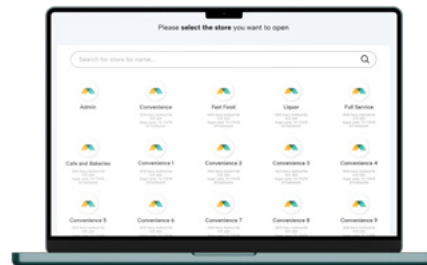

Customer Profiles

Our technology automatically generates customer profiles with every transaction. With this valuable data, you can easily track their purchase history, preferences, and other information. This allows you to create personalized experiences for customers, which ultimately boosts their satisfaction and loyalty.

Multi-store Single Access

Manage all your stores through our Single Access system, easily track and transfer inventory between locations, no matter the number of branches you have.

Point of Sale Hardware

Run your business with the peace of mind brought only by the best equipment – reliable, modern, and compatible with all the integrations you could possibly need.

Payment

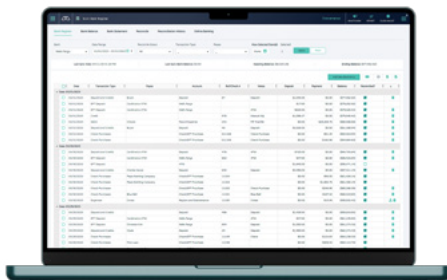

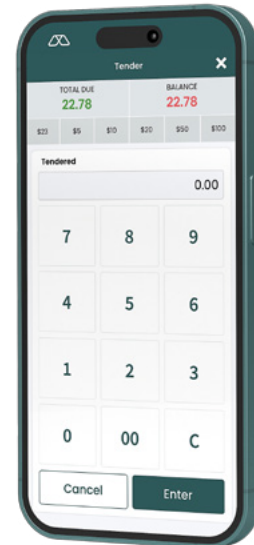

Secure transactions wherever you sell: point of sale, online, cards on mobile and in-person payments, all with minimal transaction fees.

Seamless Switch

New merchant accounts are activated and fully operational within 24 to 48 hours, allowing you to accept credit card payments without interruption. Additionally, we will subsidize any fees associated with terminating your old account.

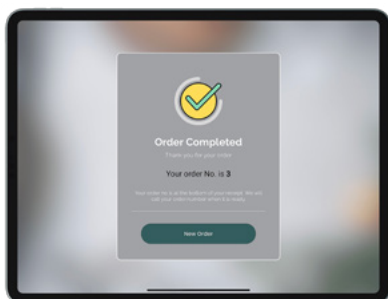

Smooth and Secure

We take significant measures to offer secure payment processing solutions that adhere to PCI standards and safeguard your business, enabling you to accept credit cards and facilitate customer payments with confidence.

Fast Funds Access

You can easily access your funds through our solution, with fast and effortless payment processing. Payments are directly deposited into your bank account in just 1 to 2 business days.

No Catch

We are dedicated to empowering you with our payment processing solution. We never charge monthly fees, require long-term commitments, or spring any surprise costs on our clients. Our pricing model is straightforward and affordable, starting at a flat rate per swipe.

Cartzie

Simplify curbside pick-up, delivery orders and drive-thru for your stores with the easy-to-use Cartzie app! To make your products and services more accessible and promote visibility in your area, give your business the Cartzie advantage.

Online Orders

The Cartzie app simplifies the online order process for your customers and employees. Grow and expand your business through online sales with smooth logistical operations.

Customer Loyalty

Build consumer confidence and simplify promotion events by automatically notifying your regulars about special deals. Frequent shoppers will appreciate your commitment to giving them the best offers!

Rewards Program

Improve the experience for customers and crew with a simple, straightforward Rewards Program, accessible with a single scan. Have an edge over your competitors through increased customer loyalty and the data collected on their purchasing habits.

Customer Engagement

The software features a Promotions tool perfect for improving foot traffic via special offers or events, from holidays to your store's anniversary.

Scan Data

Effortlessly manage and report scan data with our specialized software

- ✔ Promote business by offering discounts to customers
- ✔ Upgrade your process of reporting for manufacturer rebates
- ✔ Track and store your data in our top-notch systems

Digital Menu

The cutting-edge designs of Modisoft's digital menu boards can enhance your service and provide a modern touch that sets your establishment apart from the competition.

Save on Signage

Use Modisoft Digital Menu technology to eliminate expenses related to pricey hardware, the need to update non-digital menus, or expensive custom static menu boards.

Establish Your Brand

Tailor your Digital Menu board to reflect your brand's voice. Use one of our numerous templates or build your own unique design from scratch. The options are endless.

Access from Anywhere

Access your Digital Menu settings and content from any location and device to make screen modifications in an instant.

Sales and Specials

Successfully display and market sales and specials, using our technology. The Modisoft Digital Menu product allows you to regularly update your menu. Frequent sales and specials increases the loyalty of regular customers and grow your customer base.

Hardware

No hidden fees for necessary equipment — get everything you need. Modissoft's point of sale terminals are easy to install, and the Modissoft TV fits seamlessly in your store.

POS Computer

Featuring a stylish design and cutting-edge technology, with an intuitive touchscreen display. Use our system for inventory management, sales analytics and sale transactions.

Scanner & Scales

User-friendly and efficient, with advanced features such as wireless connectivity, barcode scanning, and weight measurement. Integrates seamlessly with our other software solutions, providing businesses with a comprehensive inventory management solution.

Payment Terminals

A simple and secure payment processing solution, featuring the latest technology, a color touchscreen display, and built-in security measures like point-to-point encryption and tokenization. A seamless payment processing experience for businesses.

Printers

Designed to work seamlessly our POS systems. Our printers are built with durable materials and come with features such as wireless connectivity and fast printing speeds, making them ideal for daily use in your store.

Accessories

We offer an array of accessories that complement our software and hardware products, providing businesses with tools to optimize operations and enhance customer experience. Designed to work seamlessly with Modissoft's POS systems, built with high-quality materials and advanced technology to improve efficiency and customer experience.

Cash Drawer

Up your store's security with a Cash Drawer. We offer secure storage for cash and important documents, made with durable materials for long-lasting use in a business environment. Our drawers work seamlessly with our POS systems and come with advanced security features to prevent unauthorized access and ensure safety.
